*Note:* The FY22 allocations for KRUI and SVP ($45K and $35K, respectively) are NOT accounted for in the overall total for Fixed Cost Budgets. KRUI and SVP are funded by USG ONLY, and their respective allocations are accounted for in the overall total for USG SABAC ($394,212). The net impact is $314,212 of allocable funds for USG SABAC for FY22.

**Note:** The recommendation for a $2.00 fee increase, which was approved by the SAF Committee in FY20 to begin in FY21, subsequently was not approved by the Board of Regents, State of Iowa. The intent of the recommended increase by the SAF Committee was for $52,000 generated from the $2.00 fee increase to be directed to Bijou for an equipment purchase for use in FilmScene. An additional $13,000 would be transferred to Bijou from FY20 year-end reversions, totaling $65,000 for the equipment purchase. To honor the intent to Bijou, USG agreed to provide the $65,000 for the equipment purchase from its unencumbered FY21 funds. *It is noted that should Bijou and FilmScene dissolve their relationship, the equipment will remain a UI asset in UI’s possession.*

**Note:** The FY22 allocation for SCOPE is significantly less than previous fiscal year allocations due to their anticipated significant FY21 year-end reserve. This difference should be given special consideration during the SAF allocations process for FY23.
