The University of Iowa Student Government: Our Mission

UISG Mission Statement

The University of Iowa Student Government (UISG) exists to represent, serve, and empower all University of Iowa undergraduate students. As a valued member of University Shared Governance, we offer input and guidance to staff, faculty, and administrators on issues that matter to students and act as the official student voice to the Board of Regents, the State of Iowa, and local and federal legislators. We also allocate the Student Activity Fee to organizations, services, and initiatives on campus that serve students. UISG listens to the diverse needs, concerns, and perspectives of the student body and constantly strives to respond with solutions that foster a better community for student living and learning.

UISG Values

Advocacy

UISG works to amplify the student voice to University of Iowa staff, faculty, and administrators, as well as the Board of Regents, the State of Iowa, and the nation. We strive to acknowledge and honor the diverse needs, concerns, and perspectives of students as we advocate for the collective good of the student body.

Collaboration

UISG values the multitude of individuals and organizations that contribute to the well-being of our diverse university community. We believe that building relationships and coalitions among these stakeholders—including local, state, and national partners—further our collective mission.

Community

UISG is dedicated to fostering a sense of community by: developing relationships, listening and responding to student concerns, sharing information and resources, and creating opportunities to contribute to the Hawkeye community.

Impact

UISG is committed to producing quality results for students in a timely manner. We strive to foster a results-oriented organizational culture that ensures we effectively respond to the needs of all students.

Equity

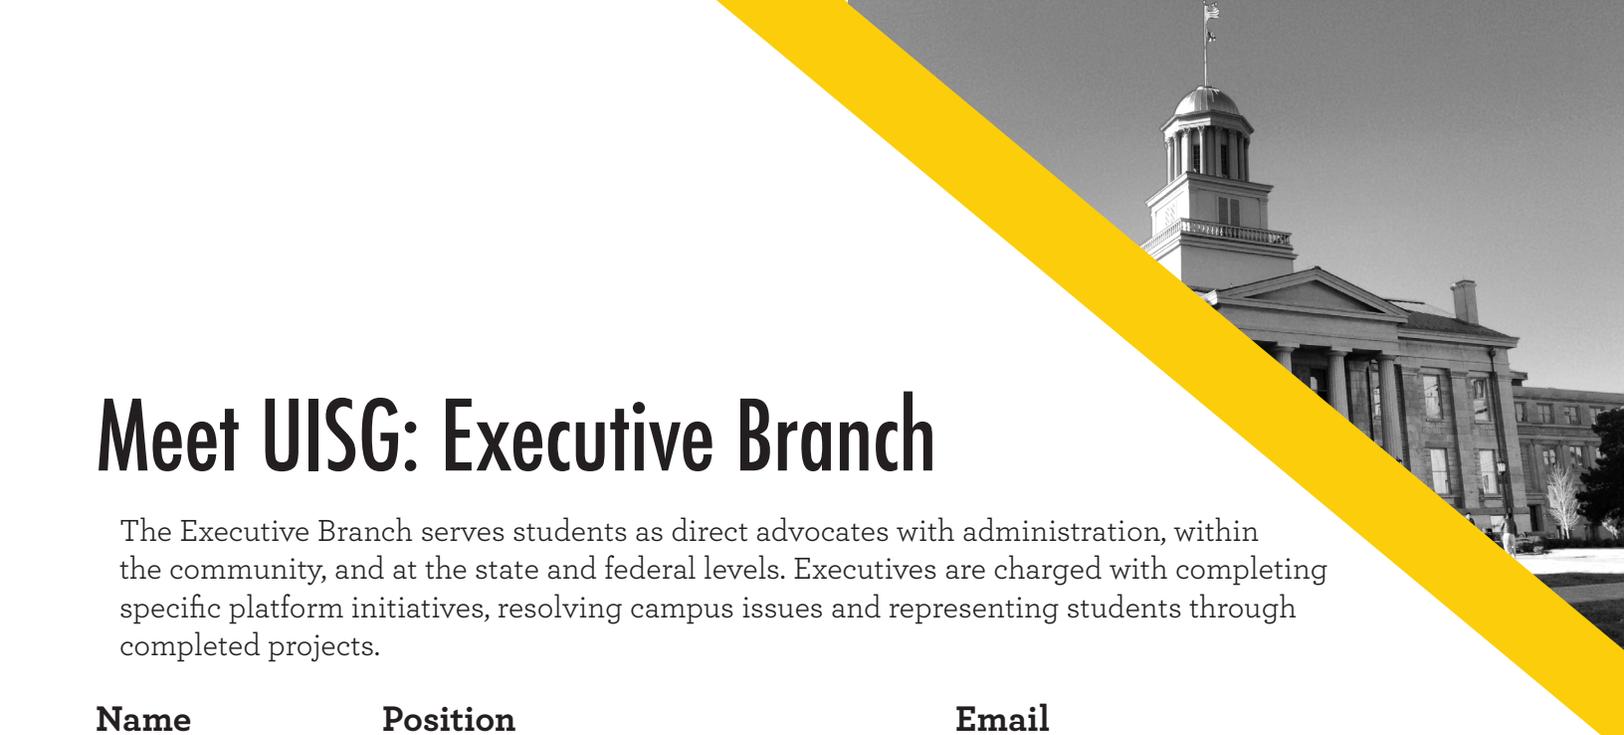

UISG will use its privilege as a representative body to create change that benefits and empowers all students. We recognize the historic and current marginalization and oppression of many identities within our university community and across the world, and we will strive to include those identities through active engagement. The pursuit of justice and equity must always guide our work.

Innovation

UISG will approach issues in thoughtful and innovative ways, and we will build on the progress of past student leaders. We will advocate for evidence-based, sustainable solutions to student issues.

Integrity

All of UISG's work should be accomplished in the most honest, transparent, and ethical manner possible.

Meet UISG: Executive Branch

UISG Progress & Initiatives

Academic Affairs

Pre-Professional Preparation Resources

Description: Many undergraduate students aspire to pursue graduate or professional education after their undergraduate degree. Bridge UI continues to work with individuals and departments on campus to expand and strengthen pre-professional programs that will prepare students to continue their higher education.

UISG Members Involved: Tristan Schmidt, Jacob Simpson, Lilián Sánchez

Relevant Committee: Academic Affairs

Progress/Notes: UISG is collaborating with the Iowa Hawk Shop to make standardized exam books for graduate and professional schools (e.g. GRE, MCAT, LSAT etc.). Beginning in the Spring Semester, there will be a workshop available. The workshop is a six week instruction course on Saturdays from 9am-1pm. Undergraduate students will pay an estimated cost of \$450-\$600. UISG reached out to the Iowa Hawk Shop to encourage them to stock pre-professional test preparation textbooks, and UISG received commitments to follow-through on stocking the textbooks, but action has not been taken.

Supplemental Instruction Expansion

Description: The goal of this initiative here is to expand the tutoring services that this program provides. We want to add more introductory courses to the program and also look to add higher level courses. Students should have the necessary support and resources to academically successful.

UISG Members Involved: Tristan Schmidt, Guowei Qi, Riley Hubbard, Jacob Simpson, Lilián Sánchez

Relevant Committee: Academic Affairs

Progress/Notes: Legislation was passed in Student Senate to advocate for more funding into programs like Supplemental Instruction (SI)/PLUS. President and Vice President continue to advocate for funding with higher administration and lobbying efforts with state legislators. The Academic Affairs Committee members will work with Academic Support & Retention (AS&R) to better understand the funding and budget model behind SI/PLUS as well as it's qualitative & quantitative benefits to the student population. Senator Qi, Senator Hubbard, and Director Schmidt, visited with associate deans, academic staff, and administrators for CLAS, Tippie College of Business, College of Nursing, College of Public Health, and the College of Engineering. Due to time constraints, the College of Education was not met with, however, it is established as a priority for next administration. The discussions held were about how SI works on campus and how it affects students. It also included how to best reallocate resources to ensure the success of AS&R and SI. Discussion with administration has led to a transition report being created as well as a stakeholder meeting to take place between administration from colleges and AS&R. All members involved will also be meeting with VPSL, Dr Shivers, to discuss how Supplemental Instruction works with and affects student life.

Develop Search Tool for Courses on MyUI

Description: UISG will work to have professors add their course description and personal syllabus to MyUI. This will be beneficial as it will help students have a better understanding of what they will encounter in the course.

UISG Members Involved: Samantha Feltenz

Textbooks in Main Library

Description: To help reduce the cost for education, we aim to have textbooks at the library for all courses.

UISG Members Involved: Tristan Schmidt, Nate Robinson, Jacob Simpson, Lilián Sánchez

Relevant Committee: Academic Affairs

Progress/Notes: There are discussions to ensure that the University is compliant with the HEOA of 2008. Faculty should be complying, but there are discrepancies with enforcement. UISG has passed a resolution advocating for better faculty and department compliance with HEOA and Office of the Provost textbook compliance policies. Spring semester will be used to develop accountability measures with the Office of the Provost. Additionally, the Academic Affairs committee, in cooperation with the Iowa Hawk Shop and UI Main Library, have developed a textbook donation drive aimed at improving knowledge of UI library resources. Currently, Academic Affairs is also creating a document a memorandum of understanding to clarify the project and UISG and the Library's role in the project. Spring semester will be used to develop incentivization plans for textbook donation. This will include looking at how to incentivize students to donate textbooks or course materials at the end of subsequent semesters for students to rent and use from the library free of charge. The library is currently working towards making textbooks and available for free to faculty and students by use of Open Educational Resources (OERs). They are working with UISG and the other Iowa Regent universities to develop a proposal that will be sent to a national coalition group on OERs for funding. Waiting on proposal status from UI Libraries. The proposal will be made in the Spring semester. Additionally, through legislation put forth by Academic Affairs Committee, UISG has committed funds to the Course Reserves program which will be a pilot program over the next 3 years to work towards providing students with textbooks and addressing affordability when it comes to course materials. With that legislation, there was also established a Textbook Donation Drive and subsequent committee to oversee which will meet towards the end of the semester to determine what donated texts go into course reserves, and what kind of texts will be purchased for course reserves. This committee's makeup was determined by both UI Libraries and UISG, adding 3 library staff, 2 CLAS and UISG members, and 1 non-CLAS, non-UISG member.

Communications Team Projects

This was the first year the University of Iowa Student Government established a Communications team, led by the Director of Communications. Our team consisted of a social media manager, two press relations managers, two graphic designers, and a videographer. We've spent the last year developing processes and procedures for the Communications Team, and made large strides in how UISG outreaches to students.

#UISGforU Branding

The UISG Communications Team identified the need for a cohesive brand throughout the organization. We chose the hashtag #UISGforU, and have incorporated it throughout numerous marketing campaigns. The phrase is a simple, yet effective way to symbolizes UISG's commitment to our constituency, and recognize the projects that are dedicated to improving the lives of students on campus.

UISG for U KRUI Radio Show

In November, UISG partnered with the campus radio station KRUI to create a radio program to discuss what initiatives UISG is currently working on, legislation passed, and highlight services and organizations on campus. In the process, UISG created the branding #JointheConversation to encourage students to listen and engage. The show not only features student leaders from UISG, including executives and senators, and from across campus, but also gives an outlet for honest conversations regarding student struggles, such as affordability, mental health, and student success.

Monthly Video Updates

In August, UISG began a monthly video series highlighting accomplishments throughout each month. These videos are released on social media.

Bi-Weekly Newsletter

UISG began sending out a bi-weekly newsletter highlighting legislation, events, and initiatives completed by the Executive Branch and the Senate. The newsletter is distributed to campus partners and students.
